The Conversion Lifecycle

Performance Marketing

Randall-Reilly utilizes digital capabilities in a performance marketing campaign to get your job posting in front of a custom driver audience. As the campaign runs, budget is allocated to the best performing channels if more than one channel is used.

Some of our channels include:

YouTube Marketing

When a targeted prospect watches videos on YouTube, your video is shown as a pre-roll ad. Users can skip the ad after 5 seconds. You're only charged when the video is viewed past 30 seconds.

Facebook Advertising

We will build your custom audience for Facebook targeting by matching Facebook profiles to email addresses and/or phone numbers in our database and tagged audience. Your ads will appear as sponsored posts and videos in the News Feeds of targeted prospects and will also be supplemented with ads on the right-hand rail of their News Feeds.

Targeted Display

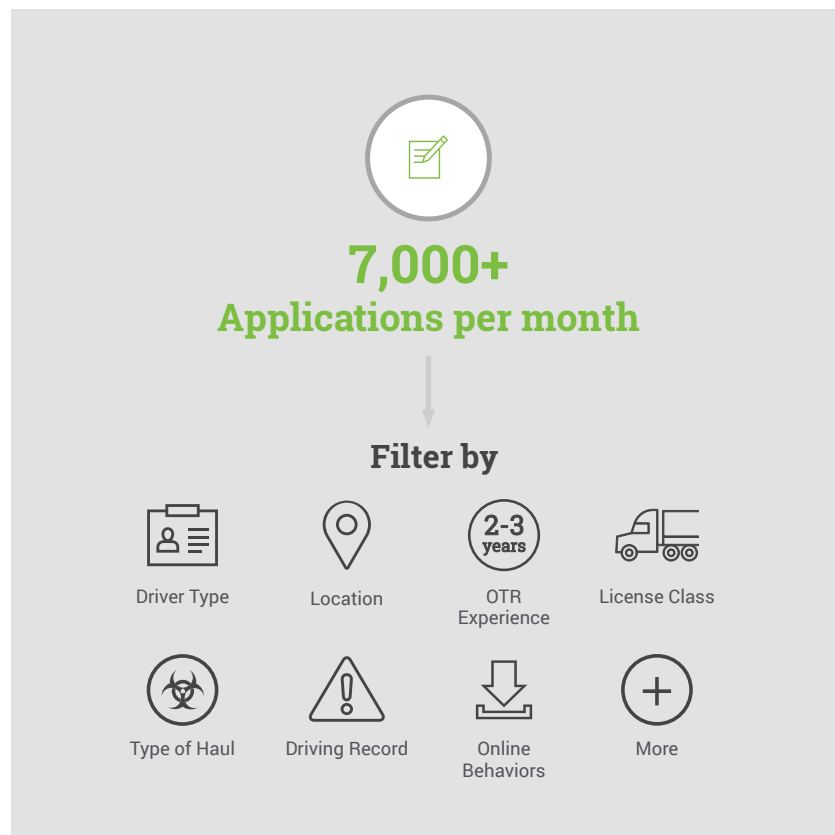

Google, Yahoo, and Bing provide access to more than 2.5 million websites, including Randall-Reilly's, through their display networks. When prospects engage with our brand websites, their browsers are tagged. This allows your ads to appear on any of the display network websites tagged prospects visit.

Search Engine Marketing

By placing your ads on search engines, you can be certain you are being seen by prospects looking for your product or service. Our team will provide SEM insights, build your keyword list and also manage daily bidding on your behalf.

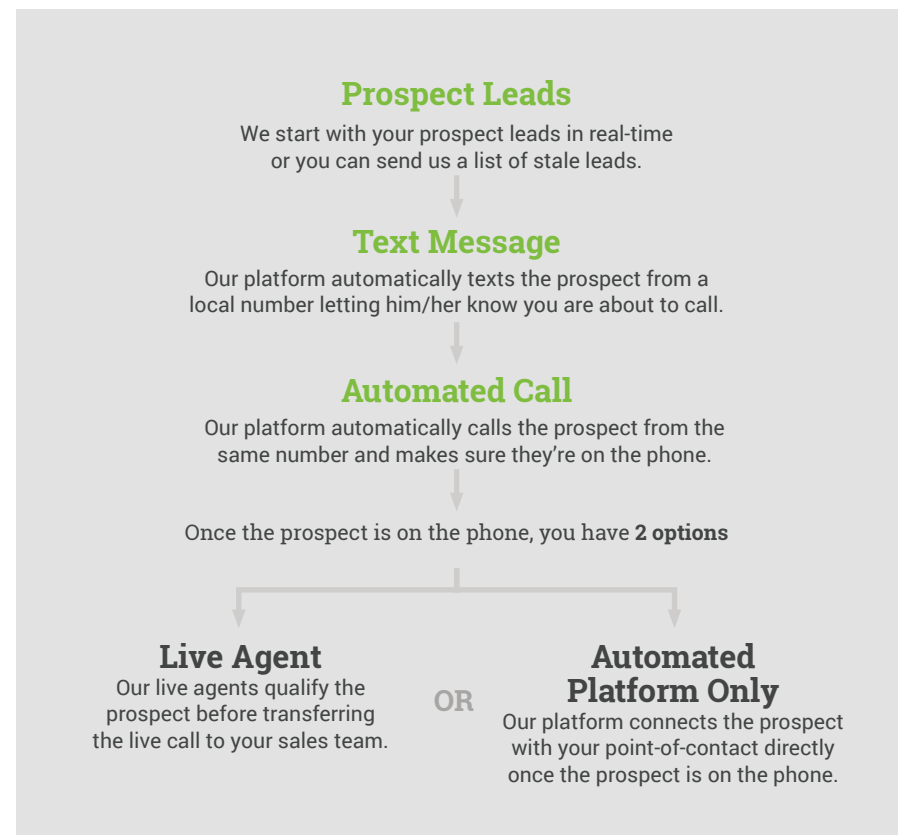

Network Lead

Every month thousands of applications are generated by our network of recruiting websites. Many of these are the drivers your fleet needs. When you buy Network Leads, we'll filter these applications by your specific hiring criteria to provide qualified truck driver leads, saving you time and money.

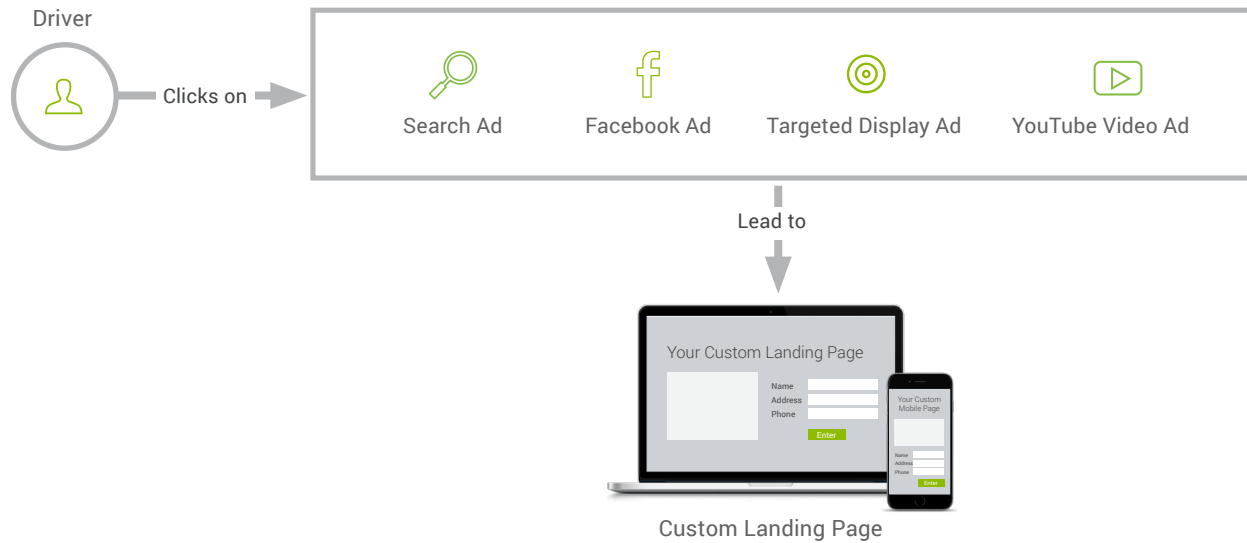

LeadConnect

It's challenging for recruiters to turn more leads into hires when they're busy weeding out non-quality leads and moving candidates through the recruiting pipeline. Lead Connect helps you significantly improve your contact rate and get quality live leads to your recruiters, so they spend more time actively recruiting.

Performance Marketing Workflow

1

Standard Options

- A. Form Submission from your Performance Marketing Campaign**
 - Submitted leads are sent to you directly.
- B. Inbound Calls from your Performance Marketing Campaign**
 - Calls ring directly to your desired location.

2

Live Lead Option

- Live Call Transfer from our Agents**
 - Our agents pre-qualify drivers during a call and transfer the call to you.

3

Automated Option

- Automated text/call/transfer of leads to you**
 - When drivers fill out a form using their phone number, they receive an automated message via text and/or call to let them know you are interested in speaking with them. Once the driver is on the phone, the system will transfer them to your point-of-contact.
 - You receive the leads and follow up.

Tracking & Reporting

We will generate detailed monthly reports that track lead growth, call volume, number of completed forms, etc. The reports will allow you to assess which elements of the campaign are most effective as well as identifying improvement opportunities. Having a means to manage campaign performance will increase the efficiency and effectiveness of your investment.

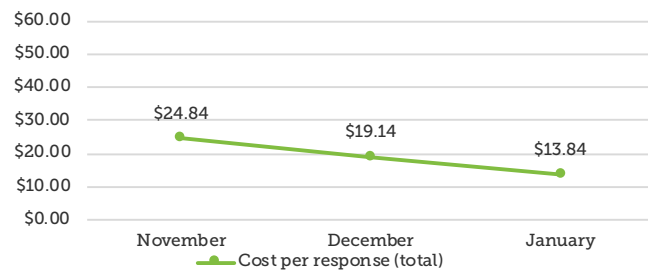

- ✓ Track all leads and provide a monthly trend report.
- ✓ Ability to track leads throughout the hiring process with a lead attribution tool.
- ✓ Optimize your campaign based on approvals.
- ✓ Tenstreet integration included
