Engage active equipment buyers before your competitors do.

When it comes to selling equipment, establishing trust, credibility and understanding the buyer's needs are key. While studies have typically cited the dealer relationship as a top purchase influencer, by the time a prospect engages with a dealer, they're usually at the price negotiation stage.

With limited resources, how do you proactively engage buyers looking for new or used equipment? And how can you focus your resources on prospects that are most likely to buy?

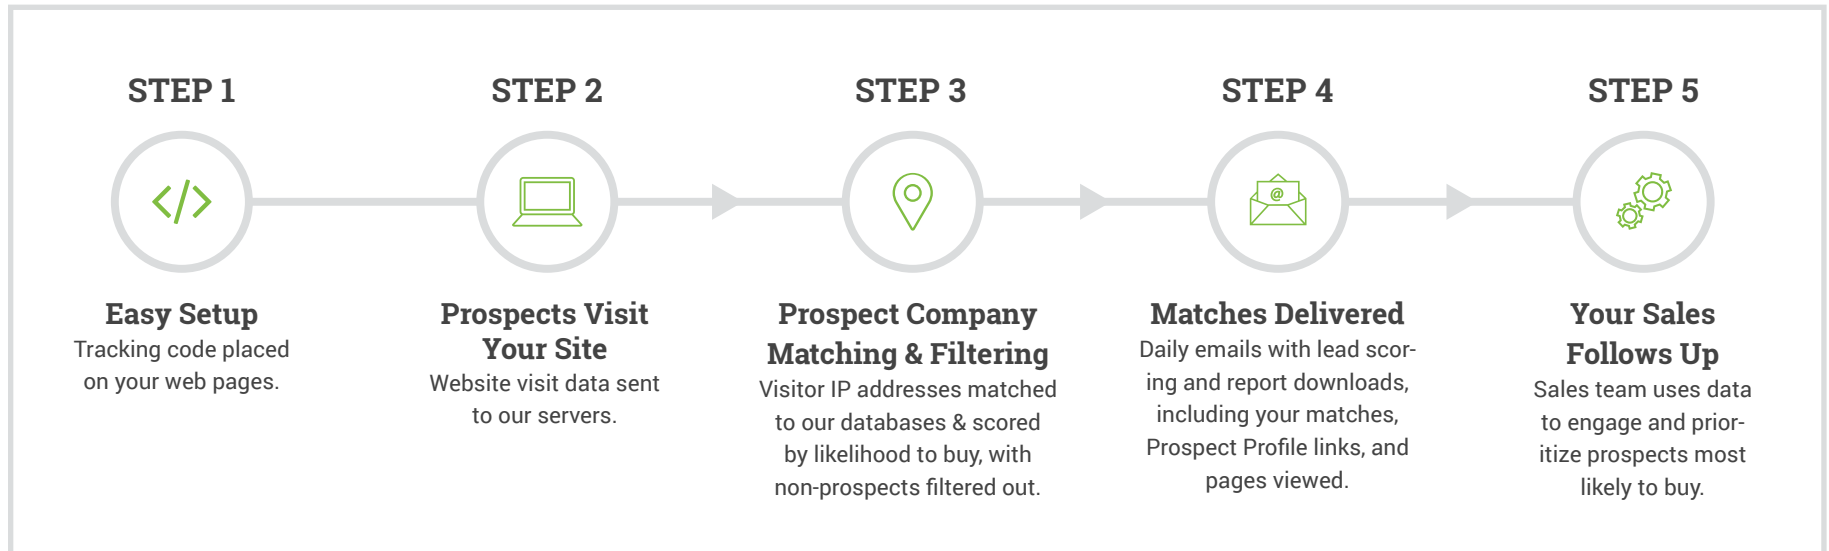

EDA Priority Prospects: Less haggling, more selling

Engage active equipment buyers before your competitors do.

EDA Priority Prospects

We'll analyze your website visitor traffic and identify matches to our verified EDA Prospect Profiles. Using a proprietary algorithm, a lead score will be generated for each match, indicating the greatest likelihood to buy. You'll receive daily emails with lead scoring, and a report download with your matches, links to view their Prospect Profiles, and the pages they viewed on your website.

Engage active buyers earlier in the buying process and arm your sales team with lead scoring and insights based on your prospects' equipment needs to drive faster and more productive engagement.

Call your Sales Representative for an EDA Priority Prospects demo and learn how data can also be used to sharpen your digital media strategy.
