

The Process

Let our live agents qualify drivers or help them complete their form submission and transfer live calls to your recruiters.

Notes

- A call is only billable to the client when a candidate passes pre-screening questions favorably AND the candidate was successfully handed off to one of the client's recruiters.
- Old leads should be emailed in a .csv file. New leads are connected to our dialing list via API.
- The length of the form determines the price and volume.
